Australian National Kennel Council Limited ABN 77 151 544 679 trading as Dogs Australia

AUSTRALIAN NATIONAL KENNEL COUNCIL LTD TA DOGS AUSTRALIA
POLICY STATEMENT

CLONING

Adopted
June 2018

Amended
October 2026

Dogs Australia does not support the cloning of companion animals. The cloning of companion animals carries significant risks for animal health, welfare and genetics, as well as bioethical concerns.
Dogs resulting from the use of cloning are only eligible for registration on the Associate Register.

Our position will be reviewed on an ongoing basis in association with the FCI and other recognised organisations and in consideration of new evidence and research in cloning techniques and technologies.
